

## DIGITAL ECONOMY AND EDUCATION:

### NEW CORPORATE AND EDUCATIONAL CHALLENGES.

## Call for Papers

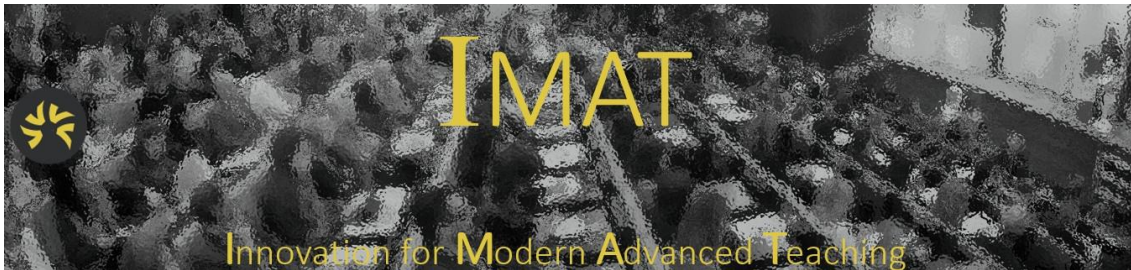

We are pleased to announce that the VII International Conference on Innovation for Modern Advanced Teaching - IMAT 2021 will be held on the 1<sup>st</sup> and 2<sup>nd</sup> of July 2021 in Valencia. IMAT is organised by ESIC Business & Marketing School and the Miguel Hernández University.

IMAT 2021 focuses on education and the digital economy as challenges for this new decade, as this conjunctural situation defies conventional assumptions in research in these areas. Research must provide society with the tools to make the most of this reality, unveiling new and untapped opportunities. The main objective of IMAT is to create a network of expert researchers, entrepreneurs and institutional representatives who contribute their knowledge on trends in innovation and education in the digital economy.

Through this call we invite you to participate in IMAT submitting your contributions to share research, results and innovative experiences.

## Topics

- Educating on Sustainable Development Goals
- Education and the digital economy
- Technology transfer
- University-Business Collaboration
- Entrepreneurship and education
- Education and globalisation
